

The advanced platform system LOBO

The LOBO system is the safe, versatile work platform system that combines the flexibility and strength of traditional scaffolding with the simplicity and mobility of tower systems.

LOBO Benefits:

- Safe and secure, OSHA compliant
- No restriction to the size or shape achievable
- Unique and patented hand adjustable clamp
- Create a work platform system around, under, over or even through any desired object
- Affordable pricing structure
- Quick to construct system, with “no tools assembly”
- Conveniently packs away for compact storage or transportation
- Trestle legs and system components made from zinc electroplated steel with aluminum framed Lobands
- Wheels for mobility, handrails for safety and outriggers for stability combine to offer a truly outstanding and safe product
